HSC - 51%
- Rathinagiri Bageerathan Matric Hr Sec School** 2017 - 2018  
SSLC - 78%

## PROJECTS

### Enhance the Surveillance System Using Face Recognition and Object Detection

- Built a security system with React.js frontend and Python backend.
- Integrated face recognition and object detection to identify individuals and track missing items.
- Developed a UI for reviewing specific timestamps with snapshot capabilities.

### Courier Management System

- Developed a full-stack application using HTML, CSS, JavaScript, and MySQL.
- Enabled real-time package tracking and customer information management.
- Designed an intuitive interface for courier operations.

### Tax Era - Freelance Website

- Designed and developed a fully responsive and modern website using React.js and CSS for a local tax consultation firm.
- Demonstrated leadership and clear communication by working independently and meeting client expectations.
- Integrated essential features including service listings, contact forms, and client testimonial sections.

## DECLARATION

I hereby declare that the information furnished above is correct to best of my knowledge.
